Timbernet (UPM Timber extranet) 24/7 on-line service

Timbernet gives you secured access to business documents from contract to invoices. We also provide pre-defined reports to follow your open contracts and keep on track of your loading orders. Documents are in PDF format. In addition Packing List and Invoices are available in XML format (WoodX version V2R31).

Terms used

PDF = Adobe Portable Document Format
XML = designed for data storage and transit, not for visual presentation ; industry standard is PapiNet - WoodX version V2R31
JSON = JavaScript Object Notation is a text-based open standard designed for human-readable data interchange.
CSV = comma-separated values file is a delimited text file that uses a comma to separate values. A CSV file stores tabular data (numbers and text) in plain text.
