

The Biofore Company **UPM**

GROWN TO SUSTAIN

Responsibly produced, continuously stable
quality sawn timber to enhance your business

UPM TIMBER

Your number one choice

Modern and efficient sawmills as well as our talented personnel play a key role in ensuring the production of continuously stable quality redwood and whitewood sawn timber.

WE CREATE VALUE

CONTINUOUS

PROFESSIONALS

EMPLOYEE
SAFETY IS
OUR TOP
PRIORITY

Our timber is a pure and natural product from Finland, and it fulfils the highest sustainability standards. We use only wood raw material that is fully traceable and controlled.

WE MAKE THE MOST TRUSTED TIMBER IN THE WORLD

100% OF
WOOD FROM
RESPONSIBLY
MANAGED
FORESTS

ALL PRODUCTS
CAN BE SOLD AS
EITHER PEFC™ OR
FSC® CERTIFIED

100%
MADE IN
FINLAND

We want you to succeed every single time. You can depend on our sawn timber even in the most demanding construction and manufacturing applications – but also in end-uses where other characteristics of Nordic wood are more important. To produce safe and pure timber we use certified redwood and whitewood from sustainably managed forests.

We foster long-term partnerships. We are dedicated to delivering you with the right quality at the right time. By choosing UPM Timber, you have the opportunity to offer your customers products they can truly trust.

DELIVERY
RELIABILITY

We believe in good, personal service. Our sales is where you are – always close, ready to serve. Our global service network and logistics organisation makes sure you get exactly what you ordered, on time.

Find your timber

More than 1,500 standard and special timber products as well as over different 300 sawing sets open a world of possibilities for you.

Let us know what does it take for you to succeed – and to make sound business and production decisions. We will have a sawn timber for you.

Our standard sawn timber product range will already offer you a huge variety of options for versatile end-uses. And in case you have additional dimension and moisture content requirements, we also design and manufacture special sawn products for specific requirements, particularly for joinery and furniture industries.

The difference between standard and special products is largely based on sawing and drying methods as well as length and grade selections.

Operations you can trust

UPM's sawn timber is a reliable choice. We use only high quality Nordic pine and spruce that can always be traced to its sustainable origins. All our sawmills in Finland comply with the latest production standards and have the PEFC™ and FSC® Chain of Custody certifications.

UPM's own wood sourcing ensures a steady raw material stream for our sawmills. With over 20,000 wood trades annually and more than 250 wood shipments every single day, we provide you with a steady supply of timber at all times.

UPM Timber conquered the Chinese market and won the trust of its customers with its excellent product quality, professional management of distribution channels and outstanding customer service.

Mr Zhang
Vice President,
Jiangsu High Hope Arser Co., Ltd

We have been working together for a long time in good spirit. Our main requirements are reliable deliveries and top quality, and we have been very satisfied with both.

Jukka Valtonen
Purchasing Manager,
Honkarakenne
