

UPM Timber

UPM Timber produces redwood and whitewood sawn timber for the joinery, packaging, distribution, and construction industries. We use certified Finnish raw material from responsibly managed forests, and the origin of our raw material is 100% traceable. Our sawmills are powered entirely by renewable energy.

Our responsibly produced raw material and skilled staff enable us to produce high-quality sawn timber meeting customer requirements.

UPM Timber has four sawmills in Finland with a total annual capacity of 1.4 M cubic metres and its own sales network in Europe and Asia. UPM Timber employs around 400 people and has its headquarter in Tampere.
